new album

Presentation

Lara is a poem that blossoms like spring. A luscious voice, full and clear. Filled with ethereal verses immersed in a delicate and spiritual revolt. Brimming with crystalline compositions, full of simplicity, tailored for pop to die for. With a stellar personality that stands out and brings bliss in our darkest moments. Lara sings, gets loose and nails it. In the likes of well-known singers who have chosen a style and share it in their own way: Bjork, Kate Bush, Lady Gaga, Adèle. Lara is like a fairy. She amazes, orchestrates. "Music is the best way to infuse light, energy and madness" she said. Get ready....

The singer who hails from Antwerp is accompanied by Nicolas Dechêne for the musical arrangements, Tristan Driessens as the oud player, eRno le Mentholé, Lucas Lovinfosse for the complementary vocals and Etienne Plummer as the drummer. This new album brings you 45 minutes of relaxation vital for your senses.
